PROCESSING & PACKAGING
7^{TO} 13 MAY 2026
DÜSSELDORF

Hall13 B63

serac

Hello,

We are pleased to invite you at **Interpack 2026, Hall 13 Booth 63**, where we will showcase our latest developments in filling and packaging technologies.

In a context where manufacturers must combine **performance, flexibility, product quality and cost efficiency**, we have developed solutions to address these challenges.

On our booth, you will discover:

A new generation of PET
blow moulder

Complex product filling
expertise in cup

Practical improvements on
our filling & capping
machines

Our food safety expertise

FCS-X: our new human-
machine interface

Multi-industry expertise

My Serac: your dedicated
digital platform

- ◆ **A new generation of PET blow moulder**

Based on an **independent shuttle transfer system**, it provides greater flexibility, improved process precision and a compact footprint.

- ◆ **Practical improvements on our filling & capping machines**

Developed by our R&D teams, these enhancements **simplify daily operations**: reduced tank to limit cleaning time and product losses, improved ergonomics, easier maintenance and operator assistance.

- ◆ **FCS-X: our new human-machine interface**

An **intuitive interface** designed for operators, integrating data collection to improve performance, facilitate troubleshooting and reduce downtime.

- ◆ **My Serac: your dedicated digital platform**

Access documentation and gain autonomy through **a platform designed to improve your operational efficiency**.

- ◆ **Our food safety expertise**

We support manufacturers in high-demand applications, **from drinkable yogurt to enteral nutrition, including preservative-free, organic and sensitive products**.

- ◆ **Complex product filling expertise in cup**

Discover our live caramel filling demonstration, illustrating our ability to handle viscous, multi-layer and challenging products.

- ◆ **Multi-industry expertise**

From food to cosmetics and home care products, **we adapt our solutions to the specific constraints** of each application.
